

2009 NSI Physician Database

Your Source For Reliable Information About Physicians In Your Area

The most accurate and comprehensive information about New Jersey physicians is again available through New Solutions' 2009 Physician Database. Our database has been maintained for over 15 years, and the 2009 update incorporates thousands of hours of development and validation time to ensure reliability and support your medical staff decision making.

THE PHYSICIAN DATABASE WILL ALLOW YOU TO:

- **Evaluate the Competition:** Compare your hospital's physicians to those practicing at competing hospitals.
- **Improve Your Competitive Position and Benefit the Community:** Determine the need to recruit physicians, by specialty, in your service area.
- **Ensure Your Hospital's Future:** Identify physicians nearing retirement age and begin succession planning.
- **Increase Utilization and Market Share:** Identify board certified physicians in the region that might consider joining your hospital's medical staff.
- **Understand Physician Practice Patterns:** Identify physicians with multiple office locations practicing part-time in your service area.

PHYSICIAN DATA ELEMENTS INCLUDE:

- Name
- Office Location(s)—up to four office locations per physician
- Specialty(s)—up to six specialties/subspecialties per physician
- Age
- Board Certification(s)—up to four board certifications and/or certificates per physician
- Degree Type (MD, DO, DPM, DDS, etc.)
- Hospital Affiliations—up to seven hospital affiliations per physician
